

NEVER MISS BUS

Ab Bus Miss Nahi Hogi!

Secure School Bus Live-Tracking App

SRBS INTERNATIONAL SCHOOL

Android + iOS | Student · Driver · Admin | Version 1.2.0

Single-Device Security | Live GPS | Cost: ~Rs. 0/month

App Summary — Hindi-English · 2026

1. App Kya Hai? ■

Never Miss Bus ek school bus live-tracking app hai — students apni bus ko **real-time map par** dekhte hain, driver **ek button** se GPS share karta hai, aur school admin poora transport system control karta hai. **Ek hi app, teen roles** — login se decide hota hai kaun kya dekhega.

3

Roles — Student, Driver, Admin

~5 sec

GPS update speed

Rs. 0

Monthly running cost

2

Platforms — Android + iOS

■ **Ek Subah Ki Kahani:** 6:45 AM — Driver Rohit ne START TRIP dabaya. 6:46 AM — Class 7-B ke Aarav ke phone par notification: '*Bus trip started!*' Aarav ne Track My Bus dabaya — bus map par chalti dikhi. 7:05 AM — '*Bus approaching — ~8 min*' alert aaya. Aarav aaraam se nikla, theek time par stop pahuncha, bus aayi, baith gaya. Na intezaar, na tension, na bus miss. **Yahi hai Never Miss Bus!** ■

2. Teen Roles — Har Kisi Ke Liye Kuch Khaas

■ STUDENT / PARENT — 'Bus kahan hai?' ka jawaab hamesha paas

- ✓ **Easy login** — Class + Section + Roll Number + Password. Email yaad rakhne ki zaroorat nahi — bachchon ke liye perfect!
- ✓ **Home dashboard** — 'Good Morning, Aarav! ■' greeting, apni bus card (number, plate, ON TRIP status), bada **Track My Bus** button
- ✓ **Live Map** — school-bus marker chalta hua, route line, saare stops, apna stop star ke saath, 'Center on Bus' button
- ✓ **Honest ETA** — 'Bus arriving in approximately 8 minutes' — app kabhi jhootha promise nahi karti
- ✓ **Route progress** — home screen par hi dikh jaata hai bus kitne stops door hai (Start se School tak progress line)
- ✓ **Smart alerts** — Trip Started, Bus Approaching, Bus Reached Stop — sab automatic notifications
- ✓ **Truth-first tracking** — network weak ho toh 'Last updated 2 min ago' dikhata hai; purani location ko kabhi LIVE nahi bolta

■ DRIVER — Ek button, baaki sab automatic

- ✓ **START TRIP** — bas ek bada green button. Morning pickup ya afternoon drop select karo, done!
- ✓ **Hands-free tracking** — GPS har ~5 second apne aap share hota hai; screen band ho, phone jeb mein ho — chalta rahta hai
- ✓ **Zero distraction** — driving ke time kuch touch karne ki zaroorat nahi. Safety first!
- ✓ **Status tiles** — GPS on/off, Internet connected, Sharing live — ek nazar mein sab clear

- ✓ **Route list** — bade font mein saare stops timing ke saath
- ✓ **END TRIP** — trip khatam, tracking band, students ko clearly pata chal jaata hai

■ SCHOOL ADMIN — Poora transport system ek app mein

- ✓ **Smart dashboard** — total buses, active trips, students, drivers — sab colored cards mein, date ke saath
- ✓ **Class-wise students** — Class dropdown se add karo (Nursery se 12th), filter chips se 'Class 7-B (18)' ek tap mein dekho
- ✓ **Roll-number system** — student ka login admin hi banata hai: class + section + roll + password
- ✓ **Password reset** — bachcha bhool gaya? Admin 30 second mein naya password de deta hai
- ✓ **Buses / Routes / Stops** — sab manage karo; stops ko upar-neeche reorder karo, delete karo
- ✓ **Live Monitoring** — saari active buses ek map par, speed aur last-update time ke saath
- ✓ **Trip History** — kaunsi bus kab chali, kitne minute — poora record with status badges
- ✓ **Activity Logs** — kaun kya kab kiya — sab recorded, koi mita nahi sakta (tamper-proof)

3. Security — Bachchon Ki Safety = #1 Priority ■

Yeh WhatsApp location sharing ya normal GPS tracker se **bilkul alag** hai. Security app mein nahi, **server (database) ke level par** hai — app hack karke bhi koi rule nahi tod sakta.

■ Ek ID = Ek Phone	Single-device login (WhatsApp jaisa): dusre phone par login karte hi pehla phone auto-logout. Password share ka misuse impossible!
■■ Admin ko sab dikhta hai	Har student/driver par LOGGED IN / NOT LOGGED IN badge + kaunsa phone, kab se + Force Logout button
■ Apni bus only	Student sirf APNI assigned bus dekh sakta hai — server rules enforce karte hain, koi doosri bus browse nahi kar sakta
■ Koi public link nahi	Bina school-account login ke kuch nahi dikhta. Zero unauthenticated access.
■ Accounts sirf school banata hai	Koi khud register nahi kar sakta, koi apni bus/role change nahi kar sakta
■■ Privacy by design	Location history store Nahi hoti — trip khatam, location data delete. Students ke phone numbers tak store nahi hote.
■ Encrypted passwords	Google Firebase Authentication — kabhi plain text mein store nahi hote

4. Design — Premium Look, Simple Use ■

■ UI/UX Highlights

- ✓ **Blue gradient headers** — greeting + avatar with online dot, modern app jaisa premium feel
- ✓ **5-tab navigation** — Home · Track Bus · My Stop · Notifications · Profile — sab ek tap door
- ✓ **Side drawer menu** — profile photo, naam, class-roll, saare shortcuts + logout
- ✓ **Colorful quick actions** — My Stop (purple), ETA (blue), Notifications (orange), Contact School (green)
- ✓ **Cute school-bus logo** — smiling yellow bus on blue ■
- ✓ **Back button sahi kaam karta hai** — page se page wapas, app achanak band nahi hoti
- ✓ **Full English text** — English medium school ke liye professional language

5. Technology — Google Ki Power, Free Mein ■■

Component	Kya hai	Kyun best hai
Flutter	Google ka app framework	Ek code se Android + iPhone dono apps
Firebase	Google ka secure backend	Login, database, real-time — sab free tier mein
OpenStreetMap	Free world map	Koi paid API key nahi, koi card nahi
Realtime Database	Live GPS pipeline	Bus location har ~5 second update

Tests passing

v1.2.0

Current version

■ Android

APK ready & tested — aaj hi install karo. Min Android 6.0+

■ iPhone (iOS)

Same code ready — sirf Apple Developer account chahiye (\$99/yr, school ke naam par). Code change zero.

6. App Ka Safar — Version Journey ■■

v1.0	Base app + Firebase connected — pehla working version
v1.4	Class-wise admin system + naya cute bus logo
v1.6	Roll-number login — email ki zaroorat khatam
v1.7	Trip History + student password reset + stops reorder/delete
v1.1.1	Premium UI upgrade — blue headers, drawer, 5-tab navigation
v1.2.0 ■	Single-device security + login status + full English

Never Miss Bus — kyunki har bachche ka time, safety aur parents ka sukoon important hai.

Ab bus miss nahi hogi! ■■
